	APPROVALO	OF STATE ENGINEER			
	to certify that I have examined the foregoing nitations and conditions:	application, and do hereby grant the same, subject to the			
This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit is issued subject to the "Stipulation" filed in the Seventh Judicial District Court of the State of Nevada in and for the County of White Pine and filed in the office of the State Engineer, Case No. 11932, dated 28th day of May, 1983.					
		to the amount which can be applied to beneficial use, and			
		cubic feet per second , but not to exceed a			
		and irrigated from any and/or all sources.			
		e completed on or before			
Proof of co	mpletion of work shall be filed before	August 8, 1985			
Application	of water to beneficial use shall be made on or	before July 8, 1988			
Proof of th	e application of water to beneficial use shall b	e filed on or before August 8, 1988			
		or before August 8, 1988
